

Hey Everyone,

Very important!!! We need to get ALL our swimmers registered in our new system by

Nov. 1st. This is done through the team website: southbayaquatics.org . Go to the "new member registration" (yes all swimmers are new members to this system) whether you are paying by credit card, check, or cash, we need to have everyone in the system.

Our credit card option is now available for those who want to take advantage of a monthly deduction. If you have registered already, and chose cash or check, then you can log back in and change the option. Payments will be due or deducted by/on Nov. 5th. ALL payments. Cash and checks can be given to your site rep.

We need all information filled out: name, address, phone number, and email. I will now be sending emails out through this website format. If you still want these weekly updates please make sure you have included your email. Also please make sure you chose which pool your swimmers swims at and in which group. Your pay rate will correlate with each group. If you get any discounts this will not reflect your discount. The treasurer will go in and manually change your fee rate.

If you have a Senior or Senior Dev. swimmer, please register your swimmer with the National City pool facility option. That way it will not be added to Loma Verde or Southwestern lists. Even though we will be swimming there for a few months.

If you need any help, your site reps can answer your questions and even help you register at your pool. We will have laptops and other sources to sign up. Make sure you register only once. Remember your username and password.

I can't stress enough how important this is to our team. Eventually we will be able to do meet entries online too. Our team merchandise list will be updated and will be able to pay for some items online. Many, many new things.

This has taken a bit longer to get started but we have only heard good things about this system and are looking forward to better serving our swimmers and parents.

Thank you for making this happen.

See you soon.

Krissy
