

The below Google document allows you to make and review comments. To view recent comments, look for the VERY SMALL orange triangle in the cell's upper right-hand corner. When you hover over that cell, the comment will appear. To add a comment, right-click on the row (line item) in question and select "Comments" on the drop-down menu. Then type away. If your name does not automatically populate in the comment box, please leave your name as well. You have until November 5th to make comments. Then on November 12th, we will have a video call where the budget committee will respond to any questions.
