August already! It's amazing that summer is so short in Wisconsin, and it's already time to think about late summer and fall swimming activities.

August 14th is the last day to register for Senior Olympics. Besides other sports, there is a 25y swim meet held on Saturday, September 12th, in the Shorewood High School pool located in the north shore suburb of Milwaukee at Capital & Oakland. Dave Clark is again the meet director for the competition. Events are offered both for masters and novice swimmers. This meet is USMS-recognized and times will be reported to USMS for USMS members. Since the meet is sponsored by Senior Olympics of Wisconsin, anyone over age 50 can swim without being a member of USMS. Please consider bringing some of your swimming friends to try out the easy competition in the novice or masters events. The friends may find that they enjoy the camaraderie of a swim meet and decide to join USMS to continue competing. Senior Olympics is an event that opens the door for future competitions with your swimming friends.

On Saturday, September 19th, the Wisconsin LMSC will hold the Annual Meeting beginning at noon at the YMCA @ Pabst Farms in Oconomowoc. The agenda for the meeting will be posted on the www.swim-wimasters.org website. All Wisconsin swimmers are invited to attend the annual meeting. Officers are elected for the coming year and the 2015-2016 swim meet schedule is approved.

In the recent July/August 2015 edition of **SWIMMER Magazine**, page 36, there is a picture on the upper left corner of four of our own swimmers who comprised a 35+ womens relay team at the USMS Spring Nationals in San Antonio, TX. Left to right are **Mindy Seidler, Cheryl Sinitz, Jennifer May and Julie Hall**. Please take a minute to look at the picture of the girls showing those great Wisconsin smiles. USMS has a lot of different pictures from the event, and selecting the picture of the Wisconsin swimmers was a great choice by the magazine's editors.

Several swimmers have completed the **5K e-postal swim**. Elsewhere in this newsletter is an article by James Biles, Wisconsin Open Water Chair, about open water events and the USMS E-postal National Championships. The 5K/10K e-postal ends September 15th while the 3000/6000 yard e-postal runs from September 15th to November 15th.

Two swimmers who hold both USA and USMS registrations have competed in USA Championship meets this summer. **Ricky Perez** competed this past weekend at the 13& Over Wisconsin Champs while **Amanda Patzke** competed in a recent long course meet at Pleasant Prairie. Both swimmers continue to re-write the Wisconsin records in their age groups. **Ricky** will to attend Eastern Michigan this fall where he plans to swim on the team. **Amanda** is training to attain the qualifying time of 26.19 for the 50 meter free so she can enter the Olympic Trials next summer.

If you plan to swim in a USA meet in Wisconsin ... before the meet, please e-mail WITopTen@usms.org so we can plan to report your times from the meet to USMS. We can report the times to the USMS database for Top Ten consideration if the pool has been measured (continued on page 10)

Open Water / Long Distance Corner

James Biles, Wisconsin LMSC Open Water/Long Distance Chair, USMS Long Distance Committee

I hope everyone is enjoying the beautiful summer weather that finally arrived in Wisconsin! The open water season is in full swing and I hope you are enjoying it. First off, there is still time to enter the USMS 5K/10K ePostal National Championship. Simply swim either a 5K or a 10K (or both) in a 50 meter pool and enter on line. You must swim it by September 15th and enter online by September 25th. I just swam it with three Schroeder swim buddies and we all did great, motivating and pushing each other. We are going to have a kick butt mixed relay for WMAC! I will go online on September 27th and get the full list of WMAC participants to make as many relays for WMAC as possible. Not a lot of swimmers enter this nationally, so it is a great chance to win a National Championship and gain All American status, either individually or as part of a relay!

Several events have already been held where WMAC swimmers participated. First was the USMS Ultra Marathon Distance National Championship on June 20th. This was a 15K race held at Morse Lake in Noblesville IN (just NE of Indianapolis). The event was held after a week of thunder storms from the remnants of tropical storm Bill. The lake was at flood stage with a lot of debris and muck in the water. The night before the race, consideration was given to cancelling the swim altogether. However, the large debris masses broke up overnight and floated down lake, outside the course, so the event was a go! Three WMAC swimmers participated. Melodee Nugent was second in the women's 45-49 age group while Jerry Lourigan was 9th and I finished first in the men's 50-54 age group.

On the local front, the non-USMS sanctioned Big Swell Swim occurred on July 11th in Devil's Lake in Baraboo. Several WMAC swimmers participated in the 2.4 non-wetsuit event and swam well. Kimberly von During was the first overall female while I was the first overall male. (Obviously, we both won our age groups as well.) Julie Van Cleave was 2nd in the women's 50-59 and Mark Richards was 2nd in the men's 50-59. Jerry Lourigan and Peter Allen followed up in the men's 50-59 with 4th and 8th place finishes respectively. Finally, Steve Justinger, was 2nd in the men's 60-69 age group.

The Madison Open Water Swim is just a couple of weeks away on Saturday, August 15th. It is a sell out and will be a fun and exciting race.

If I missed anyone in the races above or you swam an event this summer, shoot me an email so I can brag you up in the next exciting edition!

Swim long, stay strong and be safe!

Swimming and Health

Competing at the National Senior Games

by Bill Payne

The past 2 years have been tough for me! I had a heart by-pass with 2 stents. I am not comfortable yet but doctors tell me "it takes time but keep swimming". Two years ago I swam at Cleveland in the NSGA (National Senior Games Association). They think swimming is what makes it possible for me to recover as well as I have done already. In April I had some spinal surgery and they tell me I am ahead of "normal recovery time". Once again, they encourage me to continue my workouts, but to just be careful not to increase my physical stress factor too rapidly. Thank heaven my "live-in nurse" (my wife) watches my diet & my stress!

After my spinal surgery, which went well, the doctor told me I could swim without fear of doing any harm after just 3 weeks. However, I was instructed to just work up to a "normal" workout. Since I had already qualified to go to the NSGA in Minneapolis, I really started working. I planned to swim 6 events but did not feel I should do the 100 Butterfly, so I swam the 50 Free, 50 Fly, 100 IM, 200 Free, & 500 Free. (Spaced evenly over 3 days) Good planning! Success! Fifth in the 50 free and First in all the others. My times were not as good as I would have liked but I won't complain! John Olson (from Madison) and I spent some nice times together between events. If the rumor is true, New Zealand is the location in 2 years. John & I don't think we can make that.

Masters Swimmers at National Senior Olympics

by Mary Schneider

Six women and three men who are current WI Masters swimmers proudly represented Wisconsin at the National Senior Olympic games in Minneapolis, MN July 3-9. Melinda Mann achieved 5 first places in the 50 and 100 Breaststroke, the 50 and 100 Fly, and the 100 IM. Carol Reinke achieved 3 first places in the 50, 100, and 200 Breaststrokes. Bill Payne achieved 4 first places in the 200 and 500 Free, 50 Fly, and 100 IM. Scott Richards achieved 3 first places in the 500 Free, 100 Fly, and 100 IM. Rounding out the team were Candy Christenson, Jane Dillon-Stewart, Joanne Moder, Renata Ringsven, and Richard Gibson. All of them also earned their own medals for 2nd, 3rd, 4th, 5th, 7th, and 8th places. To view the complete results, click this link: <http://nsga-results.fusesport.com/competitions.asp?compID=29518&id=202>

The Wisconsin Senior Olympics will hold its meet on September 12, 2015. This is a qualifying meet for the next National Senior Games in 2017, and is considered a Masters observed meet.

by Melodee Nugent

If you are looking for an open water swim at a beautiful vacation place, look no more. This past June we went on a family vacation to the Cayman Islands for a swim called, *Flowers Sea Swim*. This is a swim I have had on my bucket list for a while since I love the tropical swims. The swim takes place along Seven Mile Beach in the crystal clear waters of the Caribbean Sea. You can see beautiful tropical fish during the swim. They offer 3 different distances: 1-mile, 5K and 10K. On June 13th, my daughter, MacKenzie, and I did the 1-mile swim. This is the most popular event with 862 swimmers that finished. That is a lot of swimmers for the mass start among the colorful caps, but I managed to find a space and place 77th overall and 27th out of 462 for women. MacKenzie placed 214th overall and 94th for women, not too bad for a girl who has not been in the pool since the fall. I must also mention there were Olympians at the swim and their results were included in the results.

A couple days later they had the 5K and 10K. The course was 2 loops for the 5K and 4 for the 10K. Definitely not as many swimmers, with 90 completing the 5K and only 17 finished the 10K (I was 10th, with 4 Olympians ahead of me).

One of the exciting parts of the event was the prize/closing ceremony, with over \$100,000 in cash and random prizes awarded. Each swimmer had a 20% chance of winning a prize and had to be present to win, therefore, most everyone stayed afterwards. These were not your average prizes: at least 10-15 airline tickets (Ireland, Paris, London, Rio De Janeiro, Toronto, New York, to mention a few), cameras, hotel stays, Samsung tablets, adventures on the island, iPods and restaurants. Unfortunately, we didn't win.

I am helping the Flowers family by doing survey work on the event. I have met Frank and Dara who run the event and they are very proud of their efforts. This was their 23rd year for the event and it gets better every year. They own the largest building company on the island specializing in manufacturing concrete products. All the proceeds from the registration are donated to Special Olympics and the Flowers family donates many of the prizes.

This event has been named one of the World's Top 13 Open Water Swims. Keep this in mind for the future!

The 2015 Check-Off Challenge is a postal event designed to motivate swimmers to complete 18 pool events and an open water swim during the 2015 calendar year. It challenges all levels of swimmers. Novice swimmers can swim new events. Experienced swimmers can try for their personal best times in as many events as practical.

The events may be swum in practice or in meets, in yards or in meters, any time during 2015. The challenge is to complete all events or try new events. The event is open to all registered Masters swimmers. Enter by filling out the [online entry form](#) or send in a paper entry via U.S. mail using the [paper entry form](#).

Entries this year have come from as far away as Australia and the U.S. Virgin Islands and almost every state in between. Check out the video clip at https://www.youtube.com/embed/pD_utx85We4 then enter today. Your entry may just be the one to complete the 50 state sweep for the 2015 Check-Off Challenge.

The 2015 Check-Off Challenge is hosted by Tennessee Aquatics Masters Swimming and sanctioned by the Southeastern LMSC for USMS, Inc., sanction #155-S002. (Note: Press the Ctrl key on your keyboard, then click the links.)

Men's 320-399 State Relay Record Holders

A tale of 2 doctors, a firefighter, and an engineer-businessman

Donald Jackson, Alex MacGillis, Fred Salzmann, George May

Don Jackson is a retired Milwaukee Fire Department Assistant Chief. He rose through the ranks.

Alex is a retired urologist. He still volunteers at the VA Hospital.

Fred Salzmann, an engineer with his own fabricating business.

George May is a retired ob-gyn.

On a Saturday afternoon in June, these "retired" swimmers were definitely not playing golf. They kept cool in the pool, and competed as a relay in the 320-359 age group at the June 20th Long Course meet at Schroeder. The agile youngsters swam a 200 meter medley relay (backstroke, breaststroke, butterfly and freestyle) in under 4 minutes. Then they competed again in a 400 meter freestyle relay in 8 minutes and 23 seconds. How many 75+ -year-olds do you know who can swim the length of a football field in one minute and 37 seconds! Both these relays set new state records for their age group. Congratulations, gentlemen!

Catalina Screamin' Relay

by Melodee Nugent

This past January I was asked by Kent Nicholas (race director for the Arizona SCAR swim I did last year) to join a 6-person relay team to swim around Catalina Island, using a super-wide route that extended the circumnavigation by an additional 50 miles by swimming around Santa Barbara Island, for a total distance of 100 miles. It didn't take me long to say "yes" to this exciting adventure. The journey started on Sunday, July 19th and this was an official Catalina Federation Channel Crossing event, which means we had 2 observers on the boat (Don and Julie). I was honored to be a part of the relay team, for which all have completed a solo swim of Catalina (and other channel swims), except for me. The relay team consisted of: Tina Neill, Emily Evans, Kent Nicholas, Ernie Hoftzyer, Forrest Nelson and myself.

Lady's first was the order for the relay, with Emily and Tina first and then I followed. My legs of the swim were at 11:00 (am/pm) and 5:00 (am/pm). Due to the short intervals (we also watched our following swimmer in the water), we were taking naps often. Each leg of the relay was one hour long. The water temperatures were ideal for me, with temps ranging from 70-75 degrees. The first few hours were rough waters with a southeast wind. I have done night swimming before, but the ocean kept me very alert. I did see fluorescent plankton during the swim, which made the water have some sparkle. Other than that, I could see only the three glow sticks on our escort's kayak. I certainly felt safer with our escort, Lance, next to me and the team knew I would hug the boat as close as possible during the night (without touching). As we approached Santa Barbara Island, we could see elephant seals and sea lions on the cliffs. I did see a couple sea lions swimming under me during one of my swims. The water was the most brilliant blue I have ever seen. I also got a couple jelly fish stings, as well as those annoying no-see-ums bites. The unofficial time for the swim was 51:55.07. Kent was the swimmer who touched land for the finish and he gave each of us a rock that fell out of his swim suit (he called it the "crack rocks"). The crew was outstanding, with a total of 13 of us on the boat for the excursion. We had our own galley girl, Hannah, who took excellent care of us. This certainly was a fun and exhausting challenge and I will cherish my crack rock forever!

Catalina Screamin' Relay team (L-R: Forrest Nelson, Melodee Nugent, Emily Evans (hiding), Ernie Hoftzyer, Tina Neill and Kent Nicholas).

Left: Islands off the California coast.

Left: Checking out the view on Santa Barbara Island.

Relay Teammates and Friends Forever

by Fred Russell

Swimmers and guests at the Wisconsin Masters Long Course State Championships, June 20, 2015, witnessed the return of four women that were teammates over 50 years ago! The four swimmers were Geri Havel, Jane Dillon-Stewart, Candy Christenson and Nancy Kranpitz. Still swimming the same best strokes they had a half century earlier, the medley relay for the Women's 240-279 Age Group consisted of Jane doing the backstroke, Candy, the breaststroke, Nancy, the butterfly and Geri, the freestyle!

Fifty years ago they competed for the all girls, Lawrence Swim Club that trained at the old 40 yard pool at Lawrence College in Appleton, Wisconsin. Their coaches were Gene Davis and Ade Dillon. Back then, the girls led their team to several Wisconsin AAU State Swimming Championships!

When the Lawrence program ended in 1964, their competitive swim lives became difficult. Girl's High School Swimming had not started. (They preceded the 1972 Title IX Legislation that required sport opportunities be made available for HS Girls and College Women). Two of the girls continued to swim with the Appleton YMCA and two left for college. Eventually, all four were in college, but only two were "allowed to swim." Nancy swam as a member of the men's team at North Central College (swimming in the first NAIA Women's National Championship) and Candy swam on the women's team at UW Oshkosh (earning All American Honors swimming with Coach Jan Moldenhauer). Jane and Geri were not so lucky. Jane went to Lawrence College and even though her club coach was the men's college coach, the school would not let her swim! Geri went to UW Superior where she too was not allowed to participate on the boy's team. In Geri's words, "I was allowed to Life Guard, time at meets and drink beer at the boy's parties; that was about it."

Whether driven by love of swimming or personal frustration, throughout their lives they had an impact in Aquatics and the growth of girl's teams. Jane was a life guard and swim instructor at various Appleton, WI pools, and coached the Menasha Swim Team. Geri was a life guard and swim instructor as well as a coach in San Diego, Ca. and the Menasha High School in WI. Candy was a life guard and instructor in Appleton, WI, started a girls swim team in Fairfield, Ca, and later coached (5) years in Wisconsin at Sheboygan South HS, and (11) years at Oshkosh North HS. Nancy also started as a life guard and swim instructor, coached at the Manitowoc YMCA, became the first high school coach at Marinette WI, and finally coached the girl's high school team at Lakeland Union HS in Minocqua, WI.

From the coach's competitive perspective, having coached the ladies at Master's Nationals, all four "get it and got it." They all understand the need to train to race. At competitions, they take care of themselves and are great teammates. They are team leaders for our "youngens" to follow. (Coach Davis and Coach Dillon did a great job 50 years ago!)

The four definitely as racers, "got it." At the State Meet in June, they all competed in four relays as well as individual events. At Short Course Nationals in San Antonio (some things do not change) Candy medaled in the breaststroke, Jane the backstroke and Nancy the fly, plus other events! (Geri did not swim SC Nationals 2015).

For over fifty years, the former Lawrence Swim Team members have shared their lives! As Geri stated "Swim Buddies For Life!" Glad they "stuck it out!" I hope we get to see this story grow!

Left to right: Candy Christenson, Jane Dillon-Stewart, Geri Havel, Nancy Kranpitz

Wisconsin LCM State Meet

by Mary Schneider

June 20, 2015 was the date of the Wisconsin Masters Long Course Meter State Meet. It was a beautiful Saturday day, both outside and inside the pool, as evidenced by the fast swimming. Twenty eight individual state records were broken, as well as eight relay records. Ninety five swimmers were in attendance, with a number of them traveling from Illinois to swim in the fast Walter Schroeder pool. One treat we all had was watching world record relay swims in the 400 Medley and 400 Free relays by a foursome of Illinois masters swimmers, each in the 50-54 age group. We were in awe, watching how fast they could swim. It really reinforces the saying that masters swimmers age gracefully. We Wisconsin swimmers may not have set any world records, but we certainly did swim hard. LCM are always a challenge, especially when the pool looks so long.

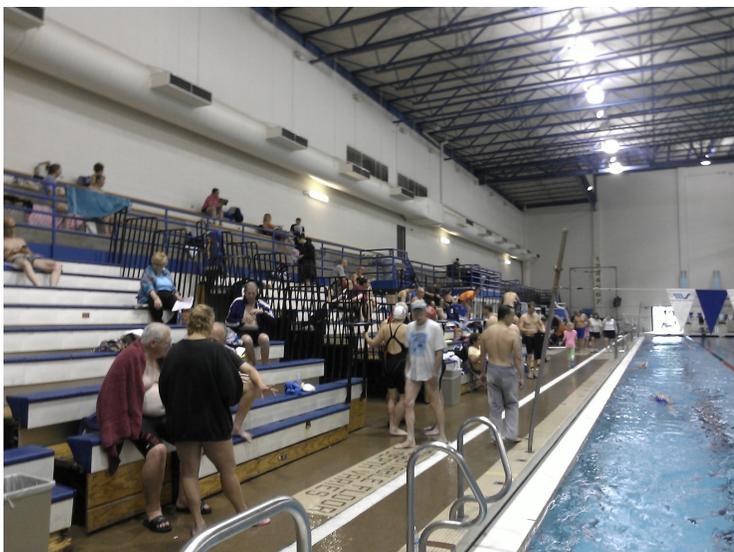

One of the interesting statistics I looked at was how many really old records were broken at this meet. Since there is only 1 LCM meet each year, there isn't as much opportunity to swim for a record. On the flip side, it may be fun to target one of the records to see if you can be the one to make it fall. The oldest record to fall was the W 25- 29 50 M Fly from 1979. The new record was set by Jenny Harris. The next oldest record was the W 65-69 200 Breast, from 1980. The new record was set by Candy Christenson swimming in a time of 4:35.30, smashing the old record of 5:20.00. Candy also broke the 50 Breast record from 1987 with a time of 52.77 vs the old record of 53.36. Sarah Perez also broke the W 35-39 200 IM record from 1999 with a 2:46.58, vs the old record of 2:49.78, along with smashing the 800 Free record from 1995 with a time of 10:55.42, vs the old record of 11:26.43. Nancy Kranpitz also smashed a record in the 50 Free with a new record of 38.83, vs the old record of 46.58 from 1999. Even more exciting was the 50 Fly record she broke from 1994. The old record was 1:11.79, and the new record is 50.03. In all, 13 of the 21 records broken by the women were from before the year 2000.

The men had a few amazing records of their own. Bela Sandor set a new record in the M 80-84 200 IM, which was pretty amazing, considering there was no previous record. It could be said he accomplished something no one else in his age group had ever done before. The oldest record broken was by Aaron Gardner in the M 40-45 400 Free, with a 4:53.31. The old record was 5:01.29 set in 1993. Dean Fochios not only broke records in the M 60-64 400 and 800 Frees, but smashed them. The new record times are 5:16.14 (400), and 10:54.65 (800), vs the old records of 5:40.20 (400), and 11:56.19 (800).

Congratulations to all the new record holders! Please see page 5 for a complete listing.

Upper Left: Sarah (W 35-39) and Esmeralda (W 18-24) Perez (mother and step-daughter), just finished competing against each other in the 200 IM. For those who are curious, Sarah came in ahead of Esmeralda.

Left: Warmup time at the State Meet. That pool sure is long when it's set for LCM!

Right: Dean Fochios, state record holder, 400 and 800 Free

(Chairman's column continued from page 1)

and appears on the USMS List of Measured Pools. Currently, the Schroeder pool, the Pleasant Prairie pool and the Erb pool (Appleton) have 50 meter configurations on the USMS List.

Two more national/international swim events are being held this summer. Five Wisconsin swimmers have registered for the USMS Summer Nationals. The Nationals are being held August 6-9 at the new Spire Institute which is near Cleveland. The 2015 FINA World Masters Championship are being held in Kazan, Russia, August 5-16. Here's wishing the best to the swimmers attending these events.

From September 30th to October 4th, in Kansas City, Kansas, the United States Aquatics Sports Convention is being held. USMS holds its annual meeting for 4 days during the convention along with USA Swimming, USA Diving, USA Water Polo and USA Syncro. Seven Wisconsin delegates will be attending the convention. These individuals are Jeanne Seidler, John Bauman, James Biles, Elyce Dilworth, Suzi Green, Dave Clark and Mary Schneider. This convention is a working and administrative convention. New rules are proposed for USMS, and these rules are then voted on by the delegates. This is also the meeting that sets the 2017 national championships locations.

In this newsletter, there is an article from the June 20th LCM meet at Schroeder. There were 98 swimmers registered for this meet which is slightly more than the 92 swimmers who registered last year. All the feedback from the meet was positive. If you attended the meet and have any feedback, please e-mail me.

USMS membership annual renewals begin November 1st. If you have swimming friends who have not yet registered for 2015 and need to register for USMS beginning September 1st, please be aware that USMS has started new membership options for the September 1st registrants. The USMS website explains the two options. The swimmer can either register with USMS for just the remainder of 2015, e.g., a four month registration that expires on December 31st, 2015, or the swimmer can combine the registration of the remainder of 2015 along with the registration for 2016 at a discount for the portion that is the remainder of 2015. This option supports programs that might start beginning in September with the school year.

On the weekend of August 8th-9th, the USA Triathlon National Age Group Championship is being held in Milwaukee. Several Wisconsin Masters swimmers are competing in this national triathlon. If you're competing, please send me an e-mail so we can include your results in the next newsletter. And for those of you who are competing in this national event, please swim fast, bike fast and run fast.
