Old Business

1. Clinics. Dave reported there would be 2/yr--one in winter--one in early summer. The cost would be about \$30.00. Known coaches would speak on all latest theories and techniques. Should benefit all levels--includes stroke work, endurance motivations. Dave will go and report back to other coaches.
→Voted in favor of expenditure. Will budget it. Dave will present final numbers and material when pertinent.
2. Swim Meets.
→Voted not to pay fees from dues. Idea presented raise funds by hosting meets or other events--open? Must schedule meet soon with AAU--are aiming for April 11th or 25th. Rich Harley will try to schedule it. Will try to sanction our intersquad meet to fulfill requ's for Nationals. We should get a schedule of all Masters Meets and a list of the local teams. Hope to schedule a meet with Woodland. Doug will call Rich W.
3. Equality of Wages.
The Aquadarts, Divers and Masters will get together and determine how much coaches to get paid for specific levels of ability. We should formulate our ideas to present to group. All 3 must agree or it goes to city council. Three levels: assistant coach, associate coach, senior coach.
→We shall wait for list of qualifications then fit people in. Someone is to check with Jerry Lee to offer our help with rough draft.
4. Budget. We paid \$1,245.00 for last 5 months (\$250./mo.). The City has \$2,500. budgeted for year. The City will bill for Dec. and Jan. then should bill monthly.
→Should we start up stroke clinic:
Each unit would be 4-1 hour sessions of intensive stroke work of your choice. 4 people/session probably Sat. and Sun. or late nights. Must be member of Masters at least 1 month. Charge \$1-3/session. Depends on number interested. Will put notice in newsletter. Dave will take signups, assign coaches check on pool availability. Doug will write letter to request use of UCD pool this summer through city. Must also check other pool availability with Jerry Lee. Make all estimates as if UCD pool not used. We need 6 hours/day and time for stroke clinic. Also must consider costs involved.
5. Dave's notes.
Jerry Hinsdale ordered films on strokes but haven't arrived yet. Would like to show them to Masters again. Co-ordinate with Aquadarts and University. May wish to rent video tape machine--seems quite beneficial. ?Require persons over 35 to have some sort of physical? First aid training for swimmers (no- legal problems) location of phones. Coaches deserve 2 week vacation in summer one in winter. Will find subs so program will continue though may combine workouts.

6. Ideas for social events. Ski Trip soon.
7. Scholarships = fee waivers available for those who need them from city. Will leave fees at present level.

Respectfully submitted,

Carol L.
