

DAVIS SWIMMING– COVID-19

PREVENTION: ENHANCED CLEANING AND DISINFECTION PROTOCOLS

In alignment with public health recommendations, the DAVIS swim programs will be taking measures to prevent community spread of COVID-19, which includes undertaking enhanced cleaning and disinfection procedures.

- 1. Enhanced cleaning and disinfection for prevention**
- 2. Enhanced cleaning and disinfection after notification of a confirmed case of COVID-19**

1. ENHANCED CLEANING FOR PREVENTION

- a. General guidance:
 - i. Increase the frequency of cleaning and disinfecting, focusing on high-touch surfaces, such as communal rooms, public restrooms, exercise rooms, handrails, tables, faucets, and doorknobs
 1. No shared toys or equipment will be used during this time. Swimmers will only be allowed to use their own equipment that they bring from home every day. Nothing will be stored or used from the facility.
 - ii. Practice good hand hygiene after cleaning (and always!):
 1. Wash hands often with soap and warm water for at least 20 seconds.
 2. If soap and warm water are not readily available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- b. Safety guidelines during cleaning and disinfection:
 - i. Wear disposable gloves when cleaning and disinfecting. Gloves should be discarded after each use. Clean hands immediately after gloves are removed.
 - ii. Wear eye protection when there is a potential for splash or splatter to the face.
 - iii. Store chemicals in labeled, closed containers. Keep them in a secure area away from children and food. Store them in a manner that prevents tipping or spilling.
- c. Cleaning and disinfection of surfaces:
 - i. Clean surfaces and objects that are visibly soiled first. If surfaces are dirty to sight or touch, they should be cleaned using a detergent or soap and water prior to disinfection.

- ii. Clean and disinfect surfaces as soon as possible in areas where a person with respiratory symptoms (e.g., coughing, sneezing) was present.
- iii. Use an EPA-registered disinfectant for use against the novel coronavirus.
- iv. Follow the manufacturer's instructions for safe and effective use of all cleaning and disinfection products (e.g., dilution concentration, application method and contact time, required ventilation, and use of personal protective equipment). Review the COVID-19 Chemical Disinfectant Safety Information guide to potential health hazards and the recommended protective measures for common active disinfectant agents.
- v. The following products are effective for disinfection of hard, non-porous surfaces:
 - 1. A 10% diluted bleach solution, an alcohol solution with at least 70% alcohol, and/or an EPA-registered disinfectant for use against COVID19.
 - 2. Prepare a 10% diluted bleach solution by doing the following:
 - a. Mix five tablespoons of bleach per gallon of water.
 - b. After application, allow 2 minutes of contact time before wiping, or allow to air dry (without wiping).
 - 3. For soft (porous) surfaces such as carpeted floor, rugs, and drapes:
 - a. Remove visible contamination (if present) and clean with appropriate cleaners indicated for use on these surfaces.
 - b. After cleaning, launder items (as appropriate) in accordance with the manufacturer's instructions. If possible, launder items using the warmest appropriate water setting for the items and dry items completely.
 - c. If laundering is not possible, use an EPA-registered disinfectant for use against COVID-19. Refer to the list of products pre-approved for use against emerging enveloped viral pathogens, or the list of disinfectants for use against SARS-CoV-2.

2. ENHANCED CLEANING AND DISINFECTION AFTER NOTIFICATION OF A CONFIRMED CASE OF COVID-19

This protocol is for cleaning and disinfection of areas where a person with COVID-19 spent time in any City of Davis Aquatics facility.

- a. Immediate closure of all DAVIS Swimming programming including facilities until confirmed case can be tracked (all participants notified) and facilities can be deep cleaned.
- b. City of Davis notification. DAVIS Swimming will work with the City of Davis to set up a full “heavy” cleaning of the facility before restarting programming.
- c. DAVIS Swimming staff will do the following (as applicable):
 - i. Communicate in writing the scope of cleaning to DAVIS Swimming membership
 - ii. Identify areas that require restricted access during and immediately following enhanced cleaning.
 - iii. Communicate with impacted swimmers, coaches, and spectators.

3. City of Davis - Daily Custodial Maintenance Standards

- a. Restrooms are required to be cleaned on a daily basis. The following actions shall be performed as minimum to accomplish these results:
 - i. Pick up and dispose of garbage and/or debris (i.e. toilet paper, towels) from floor and stall areas.
 - ii. Empty garbage cans each evening and provide new garbage bag liners for all cans.
 - iii. Pick up and remove all swimwear and other personal items in the facility Lost and Found located in the Lifeguard office.
 - iv. Restrooms shall be re-stocked so that supplies do not run out prior to next servicing. Licensee is responsible for providing all cleaning and paper supplies.
 - v. Damp-clean and disinfect all surfaces of toilet bowls, urinals, lavatories, showers, dispensers, mirrors, chrome surfaces, and other such surfaces, using a germicidal detergent/cleaner.
 - vi. Disinfect all surfaces of partitions, stalls, stall doors, shower walls/floors and wall areas adjacent to wall mounted lavatories, urinals toilets, and locker room wet area mats.
 - vii. De-scale toilet bowls and urinals. After de-scaling, the entire surface shall be free from streaks, stains, scale, scum, urine deposits, and rust stains.
 - viii. Mop floors using germicidal detergent/cleaner solution.
 - ix. Place sufficient room deodorizers to control restroom odors.
 - x. Report any necessary repairs and/or work requests to the Community Services Supervisor in a timely manner.
 - xi. Report any areas that appear not to have been serviced by the contracted custodial personnel on Monday nights to the Community Services Supervisor in a timely manner.
 - xii. Turn off all lights when not in use.
